

OVERVIEW OF ERROR MESSAGES

If an error message appears on the display, follow the instructions in this table.

Error message	Possible cause of the error	Solution
The display shows an error message E0.	There is not cookware placed on the hotplate or the cookware is not suitable for induction cooking.	Place cookware suitable for induction cooking on the hotplate, see chapter Types of cookware suitable for induction cooking.
The display shows error message E1 or E2.	Temperature sensor failure.	Send the induction cooktop to an authorised service centre for repair.
The display shows error message E3 or E4.	The voltage in the power socket to which the induction cooktop is connected is too high or too low.	Connect the induction cooktop to a corresponding power socket with a voltage of 220–240 V.
The display shows error message E5.	Overheating of the hotplate.	Allow the hotplate to cool down: Then you can put into operation again.
The display shows error message E6.	The thermal fuse was activated, turning off the induction cooktop due to overheating.	Allow the induction cooktop to cool down and make sure that the air inflow or exhaust vent is not blocked. If the problem persists, send the induction cooktop to an authorised service centre for repair.

MAINTENANCE AND CLEANING

- Before cleaning always disconnect the appliance from the power socket and allow it to cool down.
- Wipe the surface of the glass ceramic plate and the control panel with a lightly damp cloth and then wipe dry.
- To remove hard to clean stains you may use a cloth dipped in a neutral cleaning agent solution. After applying the cleaning agent, wipe the surface with a lightly damp cloth and then wipe dry.
- Keep the induction cooktop clean. Regularly remove dust and dirt from the area of the air inflow and exhaust vents. For a more thorough clean you may use cotton buds.
- Do not use cleaning products causing abrasion, petrol or solvents to clean the appliance. To prevent potential injury by electric shock, do not submerge any part of the appliance under water or any other liquid.

Induction Cooktop

TECHNICAL SPECIFICATIONS

Nominal voltage.....	220–240 V
Nominal frequency.....	50 Hz
Rated power input.....	2900 W
Power input setting range (large/small hotplate).....	200–1600/1300 W
Safety class (for electric shock protection)	II

Glossary of technical terms

Safety class for electric shock protection:

Class II – Electric shock protection is provided by double or heavy-duty insulation.

We reserve the right to change text and technical specifications.

INSTRUCTIONS AND INFORMATION REGARDING THE DISPOSAL OF USED PACKAGING MATERIALS

Dispose of packaging material at a public waste disposal site.

DISPOSAL OF USED ELECTRICAL AND ELECTRONIC EQUIPMENT

The meaning of the symbol on the product, its accessory or packaging indicates that this product shall not be treated as household waste. Please, dispose of this product at your applicable collection point for the recycling of electrical & electronic equipment waste. Alternatively in some states of the European Union or other European states you may return your products to your local retailer when buying an equivalent new product. The correct disposal of this product will help save valuable natural resources and help in preventing the potential negative impact on the environment and human health, which could be caused as a result of improper liquidation of waste. Please ask your local authorities or the nearest waste collection centre for further details. The improper disposal of this type of waste may fall subject to national regulations for fines.

For business entities in the European Union

If you wish to dispose of an electrical or electronic device, request the necessary information from your seller or supplier.

Disposal in other countries outside the European Union

If you wish to dispose of this product, request the necessary information about the correct disposal method from local government departments or from your seller.

This product meets all the basic EU regulation requirements that relate to it.
